Overview of this information collection:

- 1 *Type of Information Collection:* New Collection
- 2 *The Title of the Form/Collection:* OVW Peer Reviewer Database
- 3 *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The form number is 1122-XXXX. The applicable component within the Department of Justice is the Office on Violence Against Women.
- 4 *Affected public who will be asked or required to respond, as well as a brief abstract:*
The affected public includes individuals whom OVW has identified as potential peer reviewers and invited to submit information to the Peer Reviewer Database. Every year, OVW posts solicitations for numerous grant programs authorized by the Violence Against Women Act to enable communities to increase their capacity to respond to crimes of domestic violence, dating violence, sexual assault, and stalking. In order to carefully consider which grant applications to recommend for funding, OVW assembles peer review panels comprised of experts and practitioners to help

evaluate and score grant applications based on the requirements outlined in the different solicitations for the OVW grant programs. OVW assembles peer review panels by inviting experts and practitioners to serve as peer reviewers. Participation in the peer review program is completely voluntary; however, in order to be considered a peer reviewer, the prospective reviewer must enroll in the Database by entering their information online (contact information, resume/curriculum vitae (CV), and other self-identified information, such as employee type, education levels, job categories, ethnicity, expertise areas, and availability). A reviewer can only access, view, and modify their own individual record. OVW staff can access the Database to perform searches and review peer reviewer profiles in order to select an individual to review applications for a particular OVW grant program.

- 5 *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimated 200 individuals participate in the OVW Peer Reviewer Database.

An estimate of the total public burden (in hours) associated with the collection: The estimated public burden associated with this collection is 15 minutes. It is estimated that respondents will take less than 15 minutes to complete periodic and infrequent submissions and updates to the database. The burden hours for collecting respondent data is 50 hours (200 respondents \times .25 hours = 50 hours).
